CONSENT FOR OPERATION, DIAGNOSTIC PROCEDURES, MODERATE SEDATION, AND OTHER MEDICAL SERVICES

Consent Forms - SCAN, CONSENT FOR OR & DX PXS, 3/18/25

I agree to let (practitioner's name(s) and the following assistants or practitioners

_____ perform the surgery or procedure listed below

☐ Right ☐ Left ☐ Bilateral ☐ N/A

1. **Risks:** I understand that there are risks, complications, and possible side effects from the surgery, or procedure mentioned above, anesthesia, and treatments. This includes possible problems during recovery, which includes recovery time, pain control, and avoiding certain activities after a test, treatment or procedure, while in the facility and after you go home. I also understand the risks or benefits of choosing other treatments. I have been told if other medical professionals, like residents, advanced practice providers or students, will help with the surgery or other procedures for training, as per facility rules. These tasks could include cutting or removing tissue, giving anesthesia, placing medical devices, opening tissue, closing tissue, placing invasive lines and other medical procedures, including sensitive exams, which include, but not limited to breast, pelvic, prostate and rectal examinations, as well as others under state law.

2. **Sedation Risk:** If I am given sedation (medication to make me relaxed or sleepy), there are risks such as losing consciousness, problems breathing, or issues with the heart or blood pressure.

3. **Changes in the Plan:** If the practitioner finds any unexpected issues during the surgery, they may need to do different or extra procedures. I agree to allow them to make these changes without needing to get a new consent.

4. **Outcomes:** I understand that practitioners cannot guarantee a specific result from the surgery, and I know that medical procedures are not always exact.

5. **Blood or Blood Products:** If needed, I agree to receive blood or blood products. I understand there are risks, like allergic reactions or infections. **If I refuse, I agree to sign a Refusal of Blood Form.**

6. **External Representative(s):** I agree that if necessary, a representative from the manufacturer of any medical equipment can be present during the procedure.

7. **Photography/Video:** I agree to allow photographs, videos, or live observation of the surgery for medical, scientific, or educational purposes.

8. **Tissue Disposal:** Any tissue or body parts removed during surgery may be thrown away after 30 days. The hospital will consider any reasonable requests about disposal. The hospital may keep some tissue for medical, scientific, or educational use.

9. **Implants:** If any implants are used, I agree to allow information about the device to be shared with the manufacturer for tracking purposes.

10. **Code Status:** I have discussed my medical wishes with my practitioner before the surgery/procedure

11. **Continuous Treatment:** If the treatment needs more than one visit or procedure, as my practitioner explained, by signing this form and putting my initials here, I agree that this one consent can cover all related treatments. This is called "serial consent," and it will only be valid if I initial it here _____. If I initial and sign it, this consent stays in effect unless I take it back in writing. However, if I need to go to the hospital for something not related to this treatment, I will need to sign a new consent form.

12. **Questions:** I have had the chance to ask questions and have received answers to my satisfaction.

Patient Signature: _____ Date: Time: _____ AM/ PM

If someone is signing for the patient, please write their relationship to the patient:
_____

Witness Signature: _____ Date: _____ Time: _____ AM/ PM

Interpreter: _____ Number: _____ Date: _____ Time: _____ AM/ PM

Practitioner's Statement of Informed Consent

I have explained the surgery or procedure to the patient, including the risks, benefits, and alternatives. I have also explained the need for a possible blood transfusion and the risks involved. I offered to answer any questions.

PHYSICIAN SIGNATURE_____ Date: _____ Time: _____ AM/ PM
